Industry Group Approves By-laws, Purposes, Policies

The new industrial development corporation organized by area industry and business concerns, adopted by-laws and approved a general program during a luncheon meeting Tuesday at Augustine's restaurant, Belleville.

Chester Baker, acting chairman of Illinois-Metro East, appointed a committee of seven members to present nominations for officers and directors at a January meeting to be held in East St. Louis.

They are Theodore Gundlach, Belleville, chairman; Carl Mathias, Granite City; Edw. Fuller, Alton; M. W. Stonecipher, East St. Louis; Leon Wilson, Wood River; Robert Coultas, Edwardsville; and Pat Urban, Collinsville. The by-laws, presented by an organizational committee headed by Harold Fischer, Granite City designated the official name of the group, listed objectives and included articles on membership, officers, duties of officers and other organizational matters.

Organization Objectives
Objectives of the new organization, first proposed by the Illinois Power Co., include promotion of harmonious relationships between all individuals, organizations and political bodies interested in the further industrial development of this area.

It will seek creation of a favorable climate for the attraction of new industry and expansion of existing industry on both sides of the river, encourage joint promotion of the Illinois area as a desirable location for industry, assist in gathering data necessary for industrial development activities and aid in solving problems, and encourage constructive competition among members and discourage competitive practices which tend to degrade or undermine other sections of the entire metropolitan St. Louis area.

Approve Symbol
After a discussion, the group approved a symbol and information as suggested and provided by Illinois Power Co.

The symbol shows the Mississippi river, the Gateway arch and the words "Illinois Metro-East" and "Industrial Center of the Metropolitan St. Louis Area."

Consideration was given to a suggestion to eliminate the arch from the symbol and include the Chain of Rocks canal and locks system.

The board of directors will consist of 36 members, seven to be elected annually for three-year terms, one to be appointed annually by the president for a term of three years, and one member to be from 12 permanent member groups.

They are the Southwestern Illinois Metropolitan Area Planning Commission, Metropolitan East Chamber of Commerce Association, Southwestern Illinois Council of Mayors, City Regional Port District, Southwest Regional Port District, labor representatives in Madison and St. Clair counties, Council of Contractors Association, Southwestern Illinois University, the Illinois Bankers Association, the Illinois Manufacturers Association and Illinois Power Co.

Designate Nominations
The directors will meet at least once every three months and an annual meeting of the general membership will be held each January. The directors will work with a president, vice-president and secretary-treasurer. Committees will be appointed including an auditing committee. The nominating committee for the initial slate of directors is to prepare a list of 28 candidates to be known as the "official ticket" with four candidates from each of the following areas: Alton, Belleville, Collinsville, East St. Louis, Edwardsville, the Quad-Cities and Wood River. The membership is to elect 21 directors, with no more than three for each area. Each area then will be determined by lot who will serve one, two and three-year terms. Election will be by mailed ballot.

engineer from H. W. Lochner & Co. which prepared plans and the engineering report on the sewer program, are to attend the meeting to explain the financing and construction details of the program.

Area committee members invited to attend include: Miracle Manor—Edward Green, Robert Whitaker, Glen Lilly and L. M. Church; Bellmore Place—Robert Lipscomb; Wilshire Manor—Mike Ropac, Carl Macies, Earl Pape, Charles Gauen and Joseph Groblich; Gorbie subdivision—Thomas Noeth and Robert Thum; State Park—Curtis Bean, Don McGraw, Homer Boothman and Tim Lucia.

Nameoki Precinct One—C. A. Rutherford, Rev. Gus Faller Jr., Jack Patrick and Frank Kunicki; Nameoki Precinct Two—C. J. Baker, Durrell A. Morris, Robert J. and Floyd Brown; New Haven—Keith Hart, Wyatt Watkins and William Gary.

Village Hearing Set
The Saturday meeting will be held two days after Pontoon Beach is to conduct a public hearing on the sewer program. The hearing is scheduled tonight in the Long Lake fire department hall along Pontoon Road and was arranged by the village board of trustees which thus far has withheld any official reaction to the sewer program.

Under laws and bonding regulations governing the proposed sewer construction plan, Pontoon Beach could not be included in the project unless the village desires to participate. For that reason, Nameoki township officials have been waiting on Pontoon Beach to reach a decision as to whether or not it will join in the program.

Thomas Stulciff, president of the Pontoon Village board, said last week that after tonight's meeting, in which Gilchrist and Moe are scheduled to outline financing and construction details, the village board plans a house-to-house canvass of Pontoon Beach to obtain an accurate poll.

COURTLAND W. LYBARGER,

president of General Contracting Co., who has been elected director of the Associated General Contractors of Illinois. The officers and directors were elected at the closing session of the annual convention held Monday and Tuesday in Springfield, attended by 700 persons representing 280 firms in highway, heavy and utility construction business.

Man Fined, Gets Probation

Howard Leon Tomlin, 2001 Lee avenue, was fined \$10 and costs and placed on six months probation on an unlawful use of weapons charge and was fined \$10 and costs on a drunk charge. The hearing was conducted by Magistrate Gasparovic on Wednesday. He was arrested Nov. 22 at a tavern at 20th street and Washington avenue.

In discussing arrangements for the first meeting of the new "citizens' committee," Saturday afternoon, Briggs said the sewer program will be outlined in detail, that a chairman for each committee will be given a copy of the engineer's report, and discussion will be held on any proposed changes in the sewer program.

Plans for the meeting were made after adjournment of the regular town board meeting which included payment of routine bills as the only order of business. The next town board meeting was set for Dec. 21.

completed in January, and a comprehensive plan should be developed in five years. Graves also explained additional legislation, an open-space program through the Housing and Home Finance Agency in which matching funds will become available on a 50-50 basis to local communities directly.

He said the state has been far behind and the costs to fill the needs on state parks alone currently would be more than \$250 million.

Any priorities in state plans would be in the type of needs, and individual areas would not be listed, he said, adding that if the conservation department determines that Horseshoe lake fitted the needs, it could be high on priority.

Indian Mounds Site

It also was pointed out that the local situation is about the same as that in the Chicago area where the state developed Wolf Lake into a state park.

Kugler added that the conservation department does not want to see the spare land as this area is at least 10,000 acres defined in open space land.

"State Rep. Lloyd Harris noted that the General Assembly previously adopted his bill for the creation of a state park by an overwhelming vote but no money was available and Gov. Kerner vetoed the bill. He would not commit himself to sponsor another bill, Karandjeff said that otherwise Horseshoe Lake state park already would be in operation.

Carl Rantl, a former commissioner, said most of the 25 landowners in the lake area are willing to sell their property for park purposes.

The commission, appointed by the governor, currently is considering acquisition of more than 30,000 acres of property in a development program to cost about \$42 million. Included would be a land corridor to connect the lake to the historic Indian center spelled out by the state.

'Elks in Action', Gay 90s Party Planned Sunday

Plans were completed Tuesday night for the "Elks in Action" annual social affair to be held from 2 to 8 p.m. Sunday at the Granite City Elks club. James Kenney, exalted ruler, presided at the semi-monthly meeting. Members and guests are to be dressed in Gay Nineties costumes.

Arrangements for Sunday's festive event were discussed by Edward J. Jelinek, who reported that professional entertainers from St. Louis' Gaslight Square will provide a floor show. Dancing also is planned.

Man Fined \$100 on Theft

Clayton Ware, 23, of 1015 Logan street, Venice, has been fined \$100 and costs by Magistrate John Brick in Madison on a theft charge. He was arrested Nov. 2.

Kugler, however, admitted that the local situation is about the same as that in the Chicago area where the state developed Wolf Lake into a state park.

Salvation Army Benefit

Movie Matinee Set Saturday; Toys, Food to be Admission

A matinee movie for benefit of the Salvation Army Christmas basket program, including a feature picture and a series of comedies and cartoons, is to be presented Saturday at the Washington theater with a new toy or a can of food as the price of admission.

The theater doors will open at 10 a.m. and the show is scheduled to begin at 11 a.m. The movies and facilities of the theater are being donated as a means of supplementing the supplies needed for preparation of Christmas baskets that will be distributed to needy Quad-City families at Christmas.

The toys and canned goods collected as admissions will be turned over to the Salvation Army for use in the baskets. The agency has received 650 applications for baskets. Last year approximately 700 baskets were distributed in the Quad-City area.

Meanwhile, the annual "Tree of Lights" campaign, with a quota of \$5000, continued to report additional contributions to bring the total donation thus far to \$3375. The campaign got under way Saturday at Memorial Park where the first lights on the tree were turned on. Today's total turned on 55 lights.

Contributors turning on lights of the tree include: The Granite City Press-Record, Granite City Trust & Savings Bank, E. A. Karandjeff, H. D. Karandjeff, Mr. and Mrs. Homer Huber, First Granite City National Bank, G. H. Stenberg Co., William Wagoner Equipment Co., Granite Chapter 650 OES, Mr. and Mrs. Robert Hoevel, Kozjak's Market, Mr. and Mrs. Claude Echols, Minerva Reading Club.

Granite City Wrestlers Beat Riverview 24-18

200th Win for Schmitt

He had to wait until the second match of the night, but veteran wrestling coach Bill "Red" Schmitt last night gained the 200th victory of his highly successful coaching career at Granite City high school.

The Fighting Warriors defeated host Riverview Gardens, Mo., 24-18 before a large, loud crowd in the Rams' gymnasium. The decision gives Schmitt an overall record of 200 wins, only 13 losses and one draw in his 15 seasons at the school.

Schmitt and his boys celebrated with a huge cake provided by the Granite City cheerleaders after the match. "We passed out about 60 or 70 pieces of cake to the boys and our followers," said Schmitt. "I don't know how they got the thing over there."

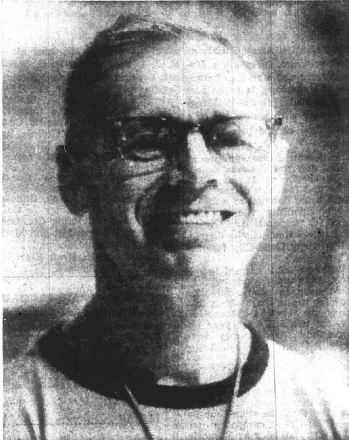

The duel with the Missouri mat powerhouse was in doubt until Gary Forshaw defeated Rummy Freedman 4-1 in the 180-pound bout. Going into that contest, the Warriors held a 21-15 lead, meaning the Rams could tie with two decisions or win with a pin and a decision in the last two bouts.

Although this was Schmitt's 200th victory in dual meets, he has 26 other triumphs to his credit. They include 13 sectional tournaments, seven districts every one since they were started, four holiday tournaments and two quadrangular meets.

Of the 13 losses, only three were to local area teams—Normandy and Ritenour in 1954 and Belleville in 1956. Two Chicago-area schools have been the chief tormentors, Waukegan defeating Schmitt's Warriors eight times and Evanston twice. The draw was with Belleville in 1953.

Last night's win also extended the Warriors' streak of consecutive victories over Missouri and downstate Illinois schools to 130. Riverview Gardens has never beaten Granite City.

Schmitt was obviously pleased by all the fuss but said: "All I'm worried about is winning from meet-to-meet, not the

cumulative record. I'd really rather win 200 tournaments." One tournament he'd like very much to win is the state one of the few prizes to elude him. Schmitt got interested in wrestling at Alton high school where he was a member of that school's team—the last one incidentally, since the school dropped the sport the year Schmitt graduated.

"I tell everyone they dropped it because I left," he laughed. "But actually the coach quit and they couldn't find a replacement."

He went on to receive a bachelor's degree from Shurtleff College and then a master's degree from the University of Illinois. Before coming to GCIS in 1950, he coached wrestling three years at Western Military Academy, Alton.

In addition to all the other honors he has received for Granite City wrestling are seven straight Southwestern Conference championships, all since league competition was revived. Only one GCIS wrestler, 133-

pound Rich Grizzard, was able to pin an opponent last night. He stopped Riverview's Bill Williams with a cradle hold in three minutes, 24 seconds.

Bill Murnua of the Rams tightened the score to 21-15 when he pinned Bill Hankins in the 165 bout with a half-nelson in 3:48. Other Riverview victories included those by runners-up in last year's Missouri state finals—Mike McDonald (103) and Rich Turnbough (heavyweight).

The Granite City junior varsity won 39-10 with Joe Martinez (95) winning by forfeit and Gus Schaalkum (103), John Kozak (133), Mike Andria (138) and Benny Morgan (163) winning on falls. Rich Hodshire (121), Brian LaMew (127), Dean Jones (154) and Dewey Bell (heavyweight) took decisions and Lester Robertson (120) battled to a draw.

In a preliminary, the GCIS sophomores lost 25-21 with Jim Gitech winning by forfeit and Tom Jett (165) and Ed Clements (119) taking falls. Rich Pauli (120) and Randy Rostuto (138) won decisions.

The Warriors meet Wood River at 7:30 p.m. here tomorrow in the conference opener, and then go to the Hazelwood quadrangular Saturday—the first round at 1 p.m. and the finals and third-place matches at 4 p.m. Normandy and Ferguson McCluer are the other entrants.

Granite City 24, Riverview 18. 95 pounds—Bill Fuchs GC defeated Gary Sleeking, 11-2; 103 — Mike McDonald RG defeated Mike Keyrild, 4-2; 112—Steve Cavanaugh GC defeated Ed Tuffy, 9-0; 120 — Nick Fante RG defeated Eddie Mills, 10-5; 127 — Rich Bledsoe GC defeated Jim Buhki, 9-2; 133—Rich Grizzard GC pinned Bill Williams, 3:24; 138 — Jim Vallott GC beat Ben Keeler, 1-1; 145—Tom Mickley GC defeated Don Louden, 8-1; 154—Mike Murnua GC beat Wayne Thuermer, 1-1; 165 — Bob Murnua RG pinned Bill Hankins, 3:48; 180 — Gary Forshaw GC beat Rummy Freedman, 4-1; Heavyweight—Rich Turnbough RG defeated John Evenden, 11-2.

Warriors to Visit Maroons, Flyers For Conference Games This Weekend

Out of the frying pan and into the fire is a time-worn phrase of the cliché variety but it is most appropriate for the situation faced this week by the Granite City high school eagles.

After tussling with perennial powerhouse Collinsville last Friday night (and seriously hurting them), the Warriors will be facing an upset before the Kahoks won 48-61, the Fighting Warriors labor tomorrow night against the Belleville Maroons who are favored to upset Collinsville as Southwestern Conference champs.

The Warriors will visit the Maroons in their Township high school gymnasium. On Saturday night, they'll call on East St. Louis' Flyers in another conference game. Both contests are scheduled for 8:30, following 6-45 junior varsity encounters.

"They've got size all over the place on the bench, in the bleachers, everywhere," said GCIS coach Andy Sullivan of the Maroons, already ranked as the No. 1 team in the metropolitan St. Louis area.

Junior Crater
Tallest on coach Jerry Turner's Belleville roster is 6-foot-6-center Bill Schellings, 200-pound junior. Schellings rebounding was a big factor as the Maroons won 47-17 over Wood River and 29-46 over Cahokia.

Six other Belleville players who see frequent action include

Venice, GC Are Tourney Centers

Venice and Granite City high schools will stage post-season basketball tournaments.

The last regional was held at Wood River but that school has been assigned the sectional assignment for the Belleville district winner.

The Wood River winner will advance to the super-sectional (first round state finals) at Olney with the champion there advancing to the Elite Eight meet at Champaign.

Three starters from last year's 24-6 team. They are senior guards Dave Brauer (5-7) and Mike Bledsoe (6-2) and junior forward Joe Wiley (6-3).

Against Cahokia, Holiday scored 17 points, Wiley 13, Brauer 11 and Snellings nine. Other top players are seniors Herschel Johnson (6-3) and Tom Farquhar (5-11) and junior Jim

Martin (6-5). Holiday hit 28 at Wood River.

Coach Pick Dehner, seeking his 400th win at East St. Louis, has four high school players have lost their three games, 45-41 to Decatur MacArthur, 37-41 to Madison and 46-41 to Alton. Starters are Al Gage (6-3), Hurley Harris (6-3), Dennis Ruge (6-2 1/2), Vern Dillon (6-1 1/2) and Torry Wells (6-0).

Ripka to Start
Sullivan announced that 5-10 guard Larry Ripka, who played impressively against Collinsville, has been promoted to a starting assignment for the Belleville game. He'll be teamed with 6-4 1/2 Terry Moore, 6-2 Joe Grobowski, 6-1 Elmer Wartham and 5-8 Vince Debeve.

Debeve and Grobowski, only seniors in the lineup, are the only starters left from the five who opened in the first game, a 36-33 triumph over Roxana. Moore is a sophomore, and Wartham and Ripka are juniors.

Against the Kahoks, Debeve scored 15, Ripka 11, Wartham 10 and Moore 10 each and Grobowski nine. Giving promise of a better-than-expected season, the inexperienced freshmen swept to a 73-48 victory in overtime Monday night in the MISAA gymnasium.

The Coolidge Braves led 22-21 after the first period and 35-29 at halftime. But the young Terriers tied the score at 45-45 after three periods. At the end of regulation play, the score was 63-61.

Carl Pinkston and Joe Collins hooped 21 points each for Madison while Gary Lusk popped in 16. For Coolidge, Jeff Jones made 21 and Norm Hall 16.

Coolidge is 9-4; the Madison frosh won a 1-1 record.

The Coolidge eighth graders bombed Central 76-32 at the winners' gym Monday night. John VanBaskirk's 17 and Jerry Rank's 10 led the Braves.

The Central seventh graders lost 47-47 and were able to score but eight points in the last three quarters. Ron Simpson hit 15, Tim Schwendemann 11 and Tim Moore nine for Coolidge while Frank Melchic had 11 for Central.

Facing the young Red Devils were Frank Glover (18 points) and Johnny Gardner with 13. Don Bains made 27 for the losing Chiefs with Rodger Cooley hitting 13 and Bob Tindal seven.

Prather, now 1-3, is host to cross-town rival Coolidge (0-4) this afternoon. Venice's frosh have a 2-0 mark.

Conference Bans Horns
Officials of the Southwestern Conference voted Monday night to outlaw recently popular plastic "valley horns" at football games and other athletic contests involving many complaints from spectators. This will not affect the "cheer" cheers often blown by trumpet-playing band members, however. The conference held its regular fall meeting at Granite City high school.

Devils Finish Fast, Top Minutemen 75-63

Striking for 27 points in the last quarter, Venice's Red Devils last night advanced to the finals of the Madison-Clinton-Macoupin Conference tournament by beating Bunker Hill's Minutemen 75-63 at Livingston.

Coach Bill Ohlendorf's team, now 4-1, rallied after the Minutemen scrambled to a 48-48 tie as the third period ended. Leading the way was Percy Dillon, who bucketed 13 of his 26 points in the final stanza.

Lending Dillon a helping hand were Rich Essington, who scored eight points in the quarter despite a painful ankle injury, and Greg Puent, whose defensive play stifled Bunker Hill stand-out Larry Allen.

Allen, a hot-handed junior guard, fired in 31 points but managed only four in the last quarter due to Puent's defensive play.

Meet Livingston in Final

The Red Devils, who drew an opening round bye after being opened No. 1 in the tourney, meet the host Livingston Eagles for the championship at 8 p.m. in tomorrow's only game.

Livingston won Monday 75-51 over Worden and then downed Jereese 78-52 in the second game last night. Top scorers for the Eagles were Ron Tami (22), Jim Denney (19) and Gerald Semanek (18).

Dillon's field goals in that final quarter were all within five feet of the basket and four field goals came on rebounds. He was backed in the scoring by Rich

Trojans Face Host O'Fallon In Cage Meet

Madison's Trojans, who drew an opening round bye, play their first game in the O'Fallon Invitational basketball tournament at 7 o'clock tonight.

They meet the host O'Fallon Panthers (1-4) in the semifinal contest. Chokolia and New Athens clash in the other semifinal at 8:30 p.m.

If the Trojans win, they'll advance to the championship game slated for 8:30 p.m. Saturday. If they lose, they'll meet Columbia in the consolation semifinal at 8:30 p.m. tomorrow.

The Trojans lost the O'Fallon championship game last season to Chokolia 62-53. In the previous tournament, the two Midwestern Conference teams met in the semifinals, with the Comanches winning 51-32.

Coach Bob Bellina's O'Fallon team lost its first four games—Triad 50-33, Lebanon 50-48, Marchant 88-63 and Nashville 46-46—before defeating St. Peter & Paul of Waterloo 75-47 in the tourney opener.

Madison coach Earl McClannahan announced a tentative line-up of Paul Lusk, Dale Turner, Carl Marr, Tom Williams and Burt.

Burt will probably start in place of Mike DeYoung, who sustained a groin injury in the rough-and-tumble 68-62 loss to Roxana last week.

Holiday Party Off Store Employees Union Aiding Quad-Cities Needy

Retail Store Employees Local 435 will again give instead of take this holiday season and will contribute canned foods for the Salvation Army's "Tree of Lights" in place of having a Christmas party.

Miss Herbie Sheppard, secretary-treasurer of the 400-member union, said the canned goods may be delivered to the union office in the Danner building, 1415 Niedringhaus avenue, or she will pick the items up at members' homes.

The goal this year is to go over the 3500 cans of foodstuffs and staples that were donated last year. The drive will continue until Dec. 21 when the foods will be turned over to the Salvation Army, which has about 350 applications for Christmas food baskets.

Miss Sheppard said this is the third year in which the membership has decided to forego a party and make donations to aid the needy of the Quad-Cities.

Attendance Bonus For Teachers in Venice Schools

Venice school board members Monday night approved an addition to the present contract with the Venice American Federation of Teachers, Local 963, which included a \$20 perfect attendance bonus, expansion of the retirement compensation section and an emergency leave clause.

The two-year agreement, retroactive to July 1, 1964, was approved by the teachers' union prior to the board meeting. It is being added to other provisions agreed upon previously.

Under the terms of the new agreement, any member of the Venice "certified education corps" who has had perfect attendance for either or both school semesters, having been neither absent nor tardy for any reason, will receive a bonus of \$30 for each semester.

The bonus is payable in June of each year and is subject to withholding tax and teachers' retirement payroll deductions.

An addition to the retirement section in the regular contract states that teachers employed 15 consecutive years by Venice school District Those who receive compensation for 25% of their accumulated earned salaries (unused sick leave time) The contract also requires those teachers planning to retire to present notification to the school board by July 1 prior to the school year retirement is to take place. Waiver of the notification requirement is at the discretion of the school board.

Emergency Leave
Five days emergency leave per year. In addition to sick leave, was granted by the board. Such leave is subject to final approval by the superintendent of schools and may be used for such reasons as a death in the family.

Interpretation of the phrase "immediate family" was included and gave the definition as members living in one's own household who are either father, mother, father-in-law, mother-in-law, foster parents, grandparents, or daughter, son, brother, sister, daughter-in-law or son-in-law.

In other actions by the board, authorization was given to purchase a portable television set costing between \$100 and \$125, and an electric typewriter for approximately \$350. The latter is to be used in the business education class.

Purchase of a second television set was requested by Supt. John D. Pier, who reported the present set is being utilized at full capacity, supplementing the regular curriculum with educational programs telecast on Channel 9.

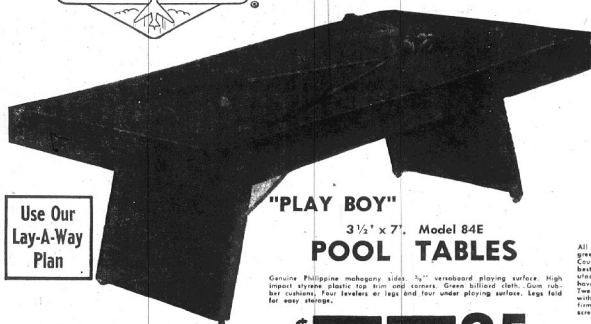

Due to the weight of the presently-owned set, moving it to various locations has proved impractical, Pier said. Presently, it is housed in a special TV room.

MORE ABOUT Madison
 (Continued from page 1.)

The police department to determine response to an experimental street and alley lighting system in two square blocks where brighter lights have been installed.

If the report is favorable, 10,000 lumen mercury vapor lights are to be installed along streets and alleys throughout the city by Illinois Power Co. Mayor Maestas said some of the aldermen said that comments so far have been favorable.

As a comparison, Mayor Maestas noted that Madison avenue has 20,000 lumen mercury vapor lights.

The experimental blocks are bounded by Fourth and Fifth streets and Alton and Madison avenues, and by James, Plum and Greenwood streets and Alton avenue.

Installation of 118 of the new lights would cost the city an additional \$6,000 to \$8,000 a year, but it was understood the extra protection to residents would be worth it.

Condemnation Notices

The council approved four notices issued by Peter Skundlich, building inspector. They were sent to:

Laborers at Water Co. Continue Strike

A strike by 16 members of the International Hod Carriers Union, Local 397, employed by the East St. Louis & Interurban Water Co. Granite City division continues in a dispute said by company officials to improve requests for wage increases.

R. C. Smith, East St. Louis manager of the district office, said the strike was called after meetings held in September and October ended without agreement on a wage issue. The contract expired in August. Smith said no negotiation sessions have been held recently and none are scheduled. Smith said Local 397 wage rates are higher than those paid in the Belleville and East St. Louis jurisdictions, but that Granite City employees were seeking an even higher scale.

Union representatives were unavailable for comment. Several outlying installation projects are being delayed.

Woman Fined \$40, Costs

Roseella Wilson, 320 of Collinsville, was fined \$20 and costs for failing to maintain a residence in Madison on charges of fighting and resisting arrest. She was arrested Dec. 1.

Dec. 22. He was given five days to appeal.

Edward Bocharian, 916 Greenwood street, to correct various hazards or raise an unoccupied house at 831 Alton avenue on or before Dec. 22.

In keeping with a custom of long tenure the council ordered that the city payroll for the last half of December be released before Christmas.

Ice Rink Committee To Visit Two in Area

Members of the steering committee named to study methods of securing an ice skating rink at Wilson Park made plans yesterday to inspect rinks at Belleville and at Clayton, Mo.

The group met at the offices of park district attorney Randall Robertson with chairman Carl Mathias presiding. It was decided also to study data on equipment for artificial ice rinks.

Attending the meeting were: Mathias, Russell D. Johnson, C. E. Townsend, E. E. Vohl, Melvin McKay, Park District President Barry Loman, Commissioner Milton Allen and Supt. Harold Brown.

GC Wants Levee Board to Widen St. Clair Ave. Bridge

Widening of the St. Clair avenue bridge over the Nameoki storm water drainage ditch is being sought by the city through a cooperative arrangement with the East Side Levee & Sanitary District.

The widening, to include a railing-protected sidewalk, was requested by parents of children attending the St. Margaret Mary school, and the city is seeking a written agreement with the levee board.

Mayor Davis reported a verbal agreement was reached in a meeting of city officials, Rev. A. J. Schwellenbach, pastor, and levee board officials, whereby the levee district would install

the sidewalk over the ditch if the city would provide the steel superstructure, estimated to cost several thousand dollars.

Moerlein suggested the city ask the levee district to do the entire job, since it also is a taxing agency and collects taxes from the persons involved as well as the city. He was informed the levee board members had said no funds were available.

heating the building properly. Approval was given by the council for appraisals to be obtained for the Lybarger property at 22nd and Monroe streets, the property at the corner of 19th and Adams streets adjacent to the present garage building and owned by Hammerman Hardware.

The city garage property also is to be appraised in the event it is sold or traded.

Man Arrested in Madison Burglary; Another is Sought

A charge of burglary was filed Tuesday against a St. Louisan, Jack C. Ridgel, 21, who was taken into custody at a St. Louis hospital two hours after a burglary early Monday at Friedman's Furniture store, Fifth street and Madison avenue. Madison police gave information to St. Louis authorities which led to the arrest.

Ridgel waived a preliminary hearing and was bound over to the county grand jury under \$500 bond.

A second man, implicated in the break-in by Ridgel's statement to police, is being sought. The burglary was discovered at 4 a.m. Monday by a squad of Madison police who noticed a car parked on Madison avenue in front of Friedman's store.

The motor running and a rear door were open. Police found a large \$250 plate glass window on the north side of the store had been broken out.

Police searched the store and were unable to find anyone but found several pools of blood. Checking the license number of the abandoned car, Madison police learned the owner had been a patient in a St. Louis hospital, but that a friend of the owner, with cuts on an arm and on the face, had visited him early Monday. St. Louis police arrested the man, later identified as Ridgel, a short time later.

Ridgel was questioned and after making a statement waived extradition. Police said the man still being sought had borrowed the car from the hospitalized owner.

should you pamper a Princess?

Depends on which princess—the teenager or the telephone. All teenage princesses—so we're told—glory in a little pampering.

But the Princess® telephone is so well made and trouble free that no pampering is required. Just dust it occasionally or wipe it with a damp cloth.

That, plus a little care in handling, is all the attention any phone needs. And phones almost never need repair—but if something does go on the blink, we'll fix it promptly at no extra charge.

We think it's our job to keep right on improving your telephone service and making it of greater personal value to you.

Many Factors in Air Pollution, Club Told

The Illinois-Missouri metropolitan area has no overall air pollution problem but some specific situations justifying corrective efforts, Donald Cairns, Granite City Steel Co. Blast Furnace Division plant engineer, told Madison Rotarians yesterday.

Favoring locally-set government standards over federal action, Cairns traced air pollution to the 11th century and defined it as any property of the air harmful to people or affecting their enjoyment of their surroundings.

He stressed the importance of substantiated facts rather than guesses and speculation, and accused some federal authorities of

attempting to convince citizens they have a problem when none exists. A recent survey showing that only 20% of the public believes there is an air pollution hazard is to be repeated in an effort to get the statistics closer to a hoped-for 60% level, he charged.

This region is fortunate in that there is good circulation of air along the confluence of the Mississippi and Missouri River valleys, Cairns said; in Los Angeles, air patterns often trap automobile exhaust and other fumes in a pocket between the ocean and mountains.

Many factors contribute to air pollution, he said, asserting that no one aspect is dominant. Electric precipitators and high-ionic wet scrubbers in new basic

oxygen furnaces proposed by Granite City Steel Co. will control iron oxide, eliminating orange or pink smoke conditions, he commented.

The speaker cited U. S. Public Health Service records showing average monthly dust fall of 20 tons a square mile in this region, compared to 25 or five more tons in Miami, Fla.; only four times as many suspended dust particles in this area as in undeveloped timber land in the Missouri Ozarks; and only a seventh as much as sulphur dioxide content here as in Chicago and Pittsburgh.

He was introduced by Alex. Schenboller, E. A. Friedman, Oscar Albert, Frank Fijan and Leo Schermer were cited as 25-year Rotary members.

Two Divorces Granted Here Yesterday

Two divorces were granted yesterday in the Granite City court with Judge Fred P. Schuman presiding.

Charging cruelty, Milton Rich and Dusky, a minor represented by his mother, Mrs. Betty Jean Dusky, was given a divorce from Judith Frances Dusky. They were married Feb. 27, 1962 in Kansas and separated last June 30. The defendant was given custody of one child with a \$10 weekly support allowance.

Dolores Aline Conner was given a divorce from Jack Conner and her former name of Wannacott was restored. They were married Aug. 31, 1962. She charged habitual drunkenness.

Student Injury Care Topic of Venice Board

Random picketing of Lincoln grade school by several representatives of the Congress of Racial Equality during the past week was discussed by the Venice school board Monday night with Rev. Oscar S. Elridge, a Core official, and Mrs. Lucille Wooten, also associated with the Core organization.

Mrs. Wooten's daughter, 16, was treated at St. Elizabeth's Hospital Nov. 21 for a fracture of the left little finger suffered the day before, reportedly in the Lincoln gym during the lunch hour. The group also briefly discussed a boy who once suffered a leg fracture and was said to have been rushed by ambulance to a hospital, and another boy who did not discover a hip fracture until the following day.

Signs carried by the picketers alleged neglect of student welfare in accident cases and seek dismissal of Lincoln Principal Robert Vickers, Mrs. Ann McKinney, fifth grade teacher, and Mrs. Ruth MacDonnell, a school nurse.

Supt. John O. Pier told students by faculty members asserting that the Women's group was advised to hold the finger under running water, that she later said it was all right and that she was able to successfully take part in her remaining classes Nov. 20. He expressed concern that she was hurt, adding that occasional injuries are unavoidable.

Rev. Elridge said picketing will continue and told the board that, since it began Dec. 2, he had been threatened by the principal. Vickers later denied it, but said he had urged picketers carrying signs to list only truthful information.

Asked whether the girl who had helped picket, will be allowed to return to school, Board President Michael E. Leatherman Jr. and Pier said she could.

Hit-and-Run Accident

Richard Dawson, 2438 Lincoln avenue, reported at 7:30 p.m. Tuesday that a hit-and-run driver in a pickup truck damaged the right rear fender of his car that was parked at 20th street and Park avenue.

A bid of \$14,175 by Macellor Asphalt Co., East St. Louis, to resurface portions of a 10-ft. wide alleyway between 10th and 11th streets, and between 11th and 12th streets, was also rejected.

15-Minute Discussion

The discussion lasted 12 minutes. Each outlined the steps in which the repair cost went from \$2500 to \$8000, with a \$1000 discount allowed by O. B. Avery Co., St. Louis. Sternberg spoke first followed by Warfield. Both disclaimed authorizing the \$8000 expenditure to completely rebuild the machine. Payment of the \$8000 bill was approved several months ago by the council over the protests of Sternberg.

The bids for resurfacing the 2600 blocks of Cleveland, Delmar and Edison, 10 feet in the 2500 block of Benton street, one block of 20th street between State and Edison avenue and the Spaulding avenues, intersection were \$14,175 by Macellor Asphalt Co., East St. Louis. Macellor's figure was based on the street department cleaning the streets for application of a prime coat. The program is to be financed with major fare box funds.

Sternberg protest that no provisions were included for a leveling of curbs and that pockets in the street now holding water would show up on the resurfaced pavements. He asked to be shown the bid specifications, but none were available.

Noting for the contract were Nomm, Skolchik, Whitmer, Bassich, Mrs. Bettner, Bartoski, Bergfield, Moon and Johnson. Opposed were Purrier, Rutledge, Johnson, Sternberg and Thompson, Dallas was absent.

\$10,560 For Fire Calls
The city of Venice has authorized payment of \$10,560 to the Venice volunteer fire department for calls made by firemen during the year Dec. 1, 1963 through Nov. 30, 1964. According to a report by Leo E. Shank, secretary of the fire department, members of the department at calls totaled 2112 during the year, combining all of the fires.

Freight Tonnage at Canal Locks Down 343,530 Tons

Freight tonnage of all types passing both up and down river through the Chain of Rocks canal during November dropped 343,530 tons below the October volume of 3,387,483 tons, according to a report by the U. S. Army Engineers at St. Louis. The November tonnage of all freight amounted to 3,043,953 tons. Both the number of vessels passing through the locks and the number of lockages, also decreased last month, but the total freight tonnage for the 11 months of the year thus far still remained 2,364,211 tons over the tonnage at the same time last year. The Engineers' report showed that during the first 11 months of 1963, total freight tonnage amounted to 28,461,202 while 30,023,933 tons have passed through the Chain of Rocks locks so far this year. Decreases were recorded in nearly all classes of freight shipments, both up and down river, during the last month. Shipments included: petroleum products, 479,530 tons up river and 203,890 tons down river; grain, 22,650 tons up river and 1,308,450 tons down river; cement, 10,500 tons up and none down; gravel, 9530 tons up and 28,300 tons down; sulphur, 42,250 tons up and none down; miscellaneous commodities, 330,875 tons up and 63,330 tons down; iron and steel products, 5700 tons up and 73,830 tons down; chemicals, 194,190 tons and 30,250, for totals of 1,313,365 tons up river and 1,710,570 tons down river.

Lockages Decrease
A total of 4386 vessels of all types passed through the locks in November, compared to 4981 during October, while November lockages totaled 719 compared to 843 in October. November use of the locks brought to 48,626 in total number of vessels passed down river through the locks during the year, as compared to 43,379 that had used the locks during the same period of 1963. A total of 8828 lockages have been made this year, compared to 8419 for the same 11-month period a year ago. Crafts using the locks in November included 760 towboats, compared to 857 in October; four passenger boats, compared to 14 in October; 3383 barges, compared to 3892; 76 contractor boats compared to none a month ago; 68 private recreational boats compared to 173 in October; six government towboats compared to ten in October; 71 U. S. barges, compared to 20 in October; one construction boat to none in October and seven patrol boats to 11 in October.

12 GC Police Officers Named Deputy Clerks

Twelve Granite City policemen were sworn in as deputy circuit clerks during ceremonies Monday afternoon at the police station. The ceremony was conducted by Mrs. Helen Homan, clerk of the Granite City division of circuit court. The deputy clerks are: Sgt. Joseph Kastelle, Lt. Paul Moore, Lt. John Phillips, Lt. Fred Mun, Lt. Leo Padgett, Sgt. William Condis, Sgt. Kenneth Watts, Sgt. Francis McManis and Patrolmen Frank Harris, Haniel Bailey and Steve Carich. They will be able to accept cases in minor violations when hearings are waived and automatic guilty pleas are entered.

Mayor Voices Zoning Change

Council action of two weeks ago in granting a commercial zoning classification for the northwest corner at 27th and Washington avenue was vetoed Monday night by Mayor Davis in a message to the council. The council, at the request of the Sixth Ward aldermen who said they had not received any complaints concerning the change, had amended the zoning code for the property of Mrs. Theresa Murphy for a service station. The corner building formerly was a tavern but had been listed as a non-conference use in a residential area. Mayor Davis said in his veto message that his action was taken because of the large number of complaints received from adjacent and nearby residents. Alderman Skubish said he also was besieged with protests including the parent-teacher organizations of Webster and Sacred Heart schools. Mrs. Betine reported a petition was being circulated and had over 400 signatures of objectors. The City Planning Commission had considered the request and while it was not approved, it also was not rejected. The request for the zone change merely did not receive a sufficient vote of commissioners for approval. About 20 persons living in the vicinity of the corner were in the audience. They were not called upon to speak.

New Income Tax Law Has Sick Pay Changes

Taxpayers were reminded today of the changes that the 1964 tax law made in the provisions of sick pay.
Jay G. Philpott, district director of Internal Revenue, said the new provisions apply to all sick pay attributable to periods of absence beginning after 1963, as a result of illness or injury.
Employees who receive more than 75% of their regular weekly rate of pay while absent from work because of illness or injury must wait 30 calendar days before sick pay is excludable from their taxable income. Then up to \$100 a week may be excluded.
Employees receiving no more than 75% of their regular weekly wage while absent have no waiting period if they are hospitalized at least one day during such absence. If the taxpayer is not hospitalized, the waiting period is seven calendar days. The maximum that may be excluded is \$75 a week for the first 30 days, thereafter the maximum is \$100 a week.
When a period of absence due to an injury or illness began in 1963 and sick pay was subsequently received in 1964, the provisions of the old law will apply to the sick pay for the 1963 period, Philpott said.
The new provisions state that up to \$100 a week can be excluded when an employee is hospitalized or injured. There is no exclusion until after a seven-day waiting period when ill and no hospitalization is required.

Christmas Dance Planned

Resting in Ozarks, 'Seen' in Windy City

Louis Pashoff, radio-television dealer of 1806 State street, was astonished by a letter received from Chicago authorities.
The letter ordered him to appear in a Chicago court to face charges in a hit-and-run accident that occurred there Nov. 20.
"Funny thing is it is," Pashoff says, "that me and my wife were relaxing that day at a lodge in the Missouri Ozarks and we have bill receipts to prove it."
He took the receipt to state police district headquarters near Maryville and they promised to investigate the mistake apparently when a Chicago witness spotted a license number similar to Pashoff's.

Folklore, 'Magic' Uses Of Tobacco are Described

JOHN W. ALLEN
Southern Illinois University

Tobacco often has been the subject of folklore for more than 4500 years. It has had its addicts, defenders and those who condemn. Early this year the U. S. Public Health Service reported upon the coincidence of lung cancer and smoking. Many have the report serious consideration and promptly quit smoking. Others smoked merrily on their ways.

To this non-smoker (it leaves a dreadful taste) the report sounded ominous. He wondered why people used tobacco at all, and just what would happen if the millions of smokers, chewers and smokers were definitely to forego a habit that has been described in terms ranging from heavenly to filthy, unhealthy, unsanitary and expensive.

If tobacco users should forego the habit, visible changes would come. With the disappearance of the fields of tobacco and many a tobacco barn there also would come the disappearance of the upper class name given tobacco. Except in a very few southern Illinois localities tobacco patches already have vanished. So far as training course under the federally financed Manpower Development and Training Program, it was announced today. The training course is being conducted with the Illinois State Employment Service and St. Elizabeth Hospital. Training is handled by the Adult Education division of the Granite City school system.

A number of similar classes already has completed training under the coordinated program. Members of the new class include Mrs. Wanda Birk, Karpenko; House; Mrs. Beulah Boner, 2343 Sheridan Avenue; Mrs. Mary Cantrell, 2036 Madison Avenue; Mrs. Mary Lou Gann, 2111 West 24th Street; Miss Frazzoli Glasper, 210 Brown Road; Veney; Mrs. Gail Gruwell, 2318 Lincoln Avenue; Mrs. Evelyn Johnson, 1035 Calhoun Street; Madison; Mrs. Judy Lindsay, 1743 Venice Avenue; Miss Mary Polette, 1608 Bremen Avenue; and Mrs. Nellie Shipman, 2018 State Street.

Markham Visiting Ports In Europe With Navy

Shipfitter third-class Wayne E. Markham, 2328 Edison Avenue, currently has what many regard as one of the best Navy assignments—visiting ports in the European area. He is serving aboard the amphibious command ship USS Ponce, the operation called "Steel Pike," featured U. S. and Spanish Marines landing from landing craft and helicopters of a combined U. S.-Spanish fleet of 84 vessels which included ships of the U. S. Military Sea Transport Service and chartered ships of the U. S. merchant fleet.

Bay Scout Troop 12 Prayer Drive Saturday

A scrap paper drive will be conducted Saturday by the Boy Scout Troop 12, sponsored by Netheringham school PTA. Anyone having papers or magazines to donate may arrange for pickup by telephoning TR 6-1232 or TR 7-6259.

Points derived from the drive will be used to finance the troop's camping activities.

Cures for Cold Sores

A cure of tobacco, that is the gob chewed to produce amber, was considered an excellent remedy for use on cold sores, boils, rashes, rusty nail punctures, snake bites, toothache, warts, and the sting of an insect. The stems of tobacco were and are used as fertilizer. They also were placed in hen's nests and beneath sheds where chickens gathered to drive the mites away.

We almost forgot to say that if a picture of a witch was drawn and ambers spured on them, those of the real witch would become sore.

Even tobacco ash was potent. Teeth would scrub white with it. They also would burn, if mixed with a little kerosene. A pipe smelling much stronger than usual, and a drawing well foretold rain, a teacher told a class that a straw drawn through a used pipe stem and the through a cat's mouth would promptly snuff out all nine lives of the cat.

All know that there should never light pipes or cigarettes from the same match. Great misfortune awaited the particular one who held the match. There was a belief that home brew would blow up if the makings were drawn while the brewer smoked. Tobacco seeds carried in pockets brought good luck. They were doubly effective if included with wicks. One who can blow smoke rings is always in luck.

All the else never give an elephant a chew of tobacco. It arouses a deadly hatred and elephants never forget.

Motorists Ignoring Yield Signs, Alderman Says

Yield right-of-way signs were denounced Monday night by Sixth Ward Alderman Casmer Skubish, who said motorists were ignoring them and causing accidents.

He called for an ordinance to be prepared to replace yield signs with stop signs at three intersections in East Granite: Henry street and Hodges avenue, East 24th street and Ridgedale avenue and at Lincoln and Ridgedale on Edgewood drive at St. Clair avenue.

The alderman pointed out the yield sign locations have been in scenes of several accidents in recent weeks and that motorists probably would pay more attention to stop signs.

An ordinance was adopted

setting a 25 mph speed limit on streets in Anchorage homes, including Edwards, East 20th street and Anchorage avenue. Placed on first reading was an ordinance establishing a two-hour parking limit on the east side of the 1700 block of State street.

Permission was given for a driveway on Franklin avenue to be widened for Maryland 83-Rite Super Market, 2205 Pontoon road.

Steel Firm Named In NLRB Complaint

A complaint has been filed before the National Labor Relations Board at St. Louis charging the Young & Greenwald Co., which last summer began steel fabricating operations here, and Local 1012 of the AFL-CIO International Order of Boilermakers, with violation of the National Labor Relations Act. The charges are made in a consolidated complaint and allege the company, which has its main headquarters in East Chicago, Ind., recognized Local 1012 of the Boilermakers as the exclusive bargaining agent of its employees at a time when the union did not represent a majority of the employees in an appropriate collective bargaining unit. The complaint also alleges that the company and the union discharged three employees because of their activities on behalf of the United Steelworkers Union, AFL-CIO, and because they refused to join the Boilermakers union.

A hearing on the complaint has been set for Monday at 10 a.m. in the board's office in St. Louis. The hearing will be conducted before a trial examiner from Washington, D. C.

GC Steel Debentures Find Quick Sale

Thirty million dollars worth of 4½% convertible subordinated debentures sold by Granite City Steel Co. to New York underwriters were oversubscribed by public buyers within a day after being placed on the open market. It was reported here yesterday. The underwriters led by First Boston Corp., Eastman Dillon, Union Securities & Co. and Merrill Lynch, Pierce, Fenner & Smith placed the debentures on the public market, at par, early this week. The offering was reported oversubscribed Wednesday morning. The debentures are due in 1994. Unless previously redeemed, the debentures are convertible into common stock until maturity at a conversion price of \$30 per share. They will be redeemed at the company's option at prices ranging 104½% prior to Nov. 30, 1965, to par after Nov. 30, 1969. Granite City Steel also announced agreements with three institutional lenders for placing \$35,000,000 of secured notes, due in 1990, under which it may borrow up to \$10,000,000 in 1966 and an additional \$15,000,000 on or before July 1, 1967. Funds obtained from sale of the debentures and the notes are to be used to finance part of the cost of construction of a basic oxygen furnace, an 80-inch computerized rolling mill, a third continuous galvanizing line and related facilities. Plans for the expansion program were announced last month.

The best time to see a lawyer is before you really need one

It is inevitable—there are bound to be occasions during your lifetime when you will have a legal problem requiring the assistance of a lawyer.

In eight cases out of ten, your problem could have been avoided, reduced, or made much less costly if you had discussed your affairs during an annual "legal checkup" with a lawyer before the trouble arose.

If you've never had a legal checkup, make an appointment with a lawyer soon. You'll find it interesting, educational and painless.

And it is just possible that he can help you avoid situations or actions that might mean trouble later on.

If you don't happen to know a lawyer, call your local or county bar association for a recommendation.

Why not make an appointment now?

Admission to SIU for Winter Quarter Up 60%

Admission of new students to Southern Illinois University's Carbondale campus for the winter quarter is running more than 60% ahead of last year, according to Leslie J. Chamberlin, director of admissions.

Chamberlin said tabulation of admissions, compiled to Dec. 1, shows 1170 new students, compared to 723 at the same time last year. He said 693 of these are entering freshmen, almost double the number from a year ago.

He said final fall quarter admissions of new high school graduates to Illinois residents who ranked in the upper two-thirds of their class or out-of-state residents in the top 40%. Others must wait until a later term and enter on scholastic probation, unless scoring exceptionally high on entrance examinations.

In addition to those who have not previously attended college, the new students shown in Chamberlin's report include 411 transfer students and 72 graduate students.

There is much wringing of the hands about the alleged divisions of Christians. But much of this alleged division is the result of people in different periods after the Reformation gaining new insight to the scriptures, which was not understood at the time of the Reformation. Each new insight was an advance over the previous information, but the previous group of people had hardened their organization around their new knowledge, and would not proceed any further. The monopoly once being broken brought a flood of freedom in religion, and each new period brought fresh knowledge over the tyranny of mere church traditions, but not full gospel knowledge. But anything was an improvement over what had been imposed upon the world.

"The Just shall live by Faith" was a basic improvement over human works as the ground of justification. Baptism by immersion only was a step back in line with Paul's statement that baptism in water was a burial (Romans 6:4). Holiness as an experience and a practice was certainly in line with God's requirement that only the blessed and holy would have part in the first resurrection. (Revelation 20:1). A priesthood of all true Christians. Believers was a restoration of the Christian position and rights of the people of God (1 Peter 2). The congregational participation in government of the Church broke the notion of the lordship of the clergy, and restored the apostolic form and purpose of water baptism in the name of the Lord Jesus Christ, is another advance that was needed, but as is usual is opposed by those whose organizational and dogmatic forms have hardened. Why not obey the truth also? (Acts 2:38; 8:15; 19:5)

High School Ranking Indicator for Success

Rank in his high school graduating class is one of the most important indicators of the probability of a student in doing college work, according to Ralph A. Benton, associate professor of agricultural industries at Southern Illinois University.

Also significant in determining college entrance English and reading examinations, he said, is the current issue of "Agriculture at Southern," a bi-monthly publication of the university.

Benton's conclusions are based on a study covering the first four classes to graduate from the SIU school of agriculture. It was limited to 362 students enrolling as freshmen in 1955, 1956, 1957 and 1958.

Final Exams Suspended At Southern This Year

The traditional final examinations approach to review of the course for the students rather than a hectic final few days of cramming to evaluation of student achievement.

Instead of ending fall quarter examinations at Southern Illinois University tries a new approach classes Saturday, Dec. 12, followed by a week of examinations the regular class schedule will be continued right up to the last day of the quarter, Dec. 19.

Instructors have the option of giving an examination during the last week of meetings of the class, to help arrive at a student's grade for the course, or of basing their evaluation of the student upon the 12-week history of quizzes, recitations and papers.

The system should be more flexible and adapt itself to the modern instructional methods better than the old plan of two-week required final exams, according to Robert MacVicar, vice-president for academic affairs.

"It should promote an orderly approach to the review of the course for the students rather than a hectic final few days of cramming to evaluation of student achievement."

MacVicar emphasized that the elimination of final exams is on an experimental basis this year and future plans depend upon the reaction of faculty and students.

Miss Landis Selected For SIU Judicial Board

Charlotte H. Landis, 3025 Dale Avenue, has been selected as judicial board representative for the third floor of Smith Hall, part of the Thompson Point residence complex at Southern Illinois University at Carbondale.

Thompson Point houses about 100 students in 11 residence halls. It includes a food service building. Those selected are responsible for student leadership, conduct and educational and social programs for the residents.

Jobs Related to Majors Prove Valuable at SIU

A student work study at Southern Illinois University at Carbondale reveals that jobs related to instruction are valuable far beyond the wages earned.

Raymond DeJarnett, an assistant director in the student work office, said students who work in career-related jobs acquire understanding, training and understanding needed to cope with teaching and professional situations.

His findings are documented in a survey report made in meeting requirements for a doctor of education degree.

DeJarnett said the program now is small at SIU, that expansion is needed to augment the education of the student and at the same time give help to teachers and research persons on the campus.

"If we had the funds, in two years we could find places for 200 students in these pre-professional jobs," he said.

Currently, about 50 undergraduate workers on the Carbondale campus have jobs related to their academic majors, he said. Of these, 14 are assisting elementary and secondary teachers.

Others in SIU's University school are employed at the college level as instructional aides and laboratory workers and some have research project duties.

Venice Teenager Collects Toys for Salvation Army

"The little children who grieve on Christmas Day are not in butts and hovels a thousand miles away. They are so near they hear us, our laughter and our son. And all the joys we have today serve to make great the wrong."

Bernard "Barney" Hogan has probably never heard those lines from William Dick Nesbit's "Unwept Tragedy," but he feels their spirit nevertheless.

Barney, 16-year-old son of Mr. and Mrs. Earl Hogan, 221 Kent street, Venice, Tuesday presented boxes of toys and games he collected from neighbors to the Salvation Army.

The toys, with those contributed by other individuals and organizations, will be given to needy Quad-City families to brighten Christmas for many young ones.

The soft-spoken youngster began collecting the toys and games about a month ago from homes where they lay unused. He repaired some of the toys and made sure the games contained all necessary pieces.

"I just did it to help people," said R. Achenbach, Adriette L. Aker, Margaret J. Eaker, Ronald V. Benson, Kenneth L. Boye, Christmas.

SIU's World Program Expanding into Africa

The expanding world education program of Southern Illinois University, which began in 1960 in Vietnam, has reached the African nations of Nigeria, Mali and Senegal and into western Asia's Afghanistan.

SIU specialists are helping with rural education and vocational training problems in Vietnam and with development of English language teaching programs in Nigeria. An SIU representative, Dorothy Denaly, has been sent to Senegal to explore possibilities of planning academic and vocational training for Peace Corps volunteers. Specialists are being recruited for teams that will develop educational programs in Mali and Afghanistan.

Two SIU staff members who will lead teams of specialists into Mali and Afghanistan now are back on campus after making surveys in the two countries and are recruiting staffs to develop the program.

Holiday High-When Your Personal Christmas Arrives

By Mrs. Bonnie Fuller

It's Christmas time in the Quad-Cities. Santa Claus has already arrived in an elaborate sleigh pulled by six glamorous reindeer.

Above the streets in the downtown area, tinsel and glittering ropes have been hung; sparkling lights and stars swing from the buildings to another; over by the YMCA and the city hall, angels are blowing their golden horns.

The Associated Retailers have quite outdone themselves this year; never have the store windows been so inviting. There is the sound of Christmas carols being played inside the stores. Shoppers hurry by with their arms full of gifts.

Missing Element

The air is crisp but not uncomfortable. The stage is set and, somehow, you feel a little guilty. Like a spectator, you survey the bustling crowds and all the preparations under way.

This is your favorite time of the year and yet something is wrong. Finally, you admit that it just doesn't seem like Christmas.

Can't seem to get in the Christmas spirit, you confess to a friend.

She has the solution: "We need a good snow," she says. "That always makes it seem more like Christmas."

Mechanically, you begin to address your cards; there is so much to be done. Is Christmas really beginning to be commercialized as some are saying, you wonder. And so the December days go by.

And then, quite without warning, comes the illuminating moment. Your personal Christmas arrives!

Can Occur Anytime

There is never a set time or place for this arrival. It may be when you are baking Christmas cookies or perhaps when you open a Christmas card from someone here to begin here in the Quad-Cities, let us pray for enduring peace and better understanding between men and nations and let the church play or when your teenager informs you that this year he or she is buying Grand-

ma. "Something she has always wanted."

Or it could be when you go to pick out the Christmas tree—Not that this one you tell the man in charge.

Or maybe it is when you hear those little feet running to tell you on Christmas morning, "What Santa has brought, or when you read again and hope, that's ever new and full of hope."

A Heart Glad And Full

Suddenly, it is Christmas time! Your heart is glad and full of joy. Everything quite magically now falls into place. So what if all of the gifts haven't been wrapped? You know this will eventually get done.

Your house has wings on them and the world is illuminated like the lights on the tree. You sing carols along with the radio.

What a wonderful, happy time is Christmas! You can almost feel the air crackling with excitement and good will. A love for all mankind seems to transcend national and religious differences.

Let us be careful lest religious prejudices come in and mar or destroy the true spirit of Christmas. When a merchant of the Jewish faith brings out the turkey, he has saved just for your Christmas dinner and amiably wishes you a "Merry Christmas," ask yourself how many times in return have you wished him a "Happy Hanukkah."

Gifts Of The Spirit

To give Christmas time does not mean to exchange gifts of equal value, nor does it necessarily mean material things at all. Sometimes we find it much more difficult to give gifts of the spirit—kindness, patience, tolerance, friendship and—most of all—compassion.

Let us not blame anyone but ourselves if we measure Christmas in terms of dollars and cents. God's gift to us at this time has been love.

Remember, "What can we give to all our fellow men?"

And so, as the Yuletide season begins here in the Quad-Cities, let us pray for enduring peace and better understanding between men and nations and let the church play or when your teenager informs you that this year he or she is buying Grand-

BEFORE AND AFTER views of the Quad-City harbor area. A widened section of the Chain of Rocks Canal—now the main Mississippi River channel—forms the harbor immediately north of the canal locks. At top left, an upstream view from near the locks shows the barren canal bank as

it appeared in 1952. At top right, an aerial photograph taken last month shows the Bi-State Development Agency wharf and freight terminal and, to the east, parts of the Army Depot and the city of Granite City.

River Terminal Ending 10th Year

Ten years ago—on Dec. 14, 1954—Granite City Steel Co. and Bi-State Development Agency officials signed a lease agreement for a local river shipping terminal. Construction of the dock had been carried out during the 19 months following dedication of the eight-mile-long Chain of Rocks canal and its mammoth locks in 1953.

Three days after the move, barge traffic. But with the advent was signed, a New Orleans-bound towboat edged into the middle of the canal, pulling a load of 2500 tons of steel plates. There was nothing especially unusual about the destination of the sea voyage, Holland, but it was the first water shipment ever to have its origin the Quad-Cities.

The ensuing decade has seen growth of the metropolitan area. The site chosen linked principal gain went to Granite City Steel, a full-fledged trucking and warehousing company. The seaport at above both the locks and a full-fledged steel mill assured ample commodity and convenient access

to the public portion, from 200 to 400 feet. And Granite City Steel, John N. Marshall accompanied new uses 500 feet, instead of the 400 feet available for mooring of barges—an increase of 400 feet, where they debarked from the towboat.

Formal dedication of the new barge terminal took place on Sept. 17, 1963.

Benefits All Parties
Just as the canal itself aided national defense and waterway objectives as well as affording a water route for industry and commerce, the dock installation served multiple purposes.

Adequate Water Depth
By the time an open house and dedication took place at the enlarged terminal Jan. 15, 1964, the value already had been strikingly demonstrated. The enlarged facilities had successfully handled all additional barges routed to it when low water began in mid-December 1963—to curtail docking on the Missouri side. Depth here never fell below 18 feet.

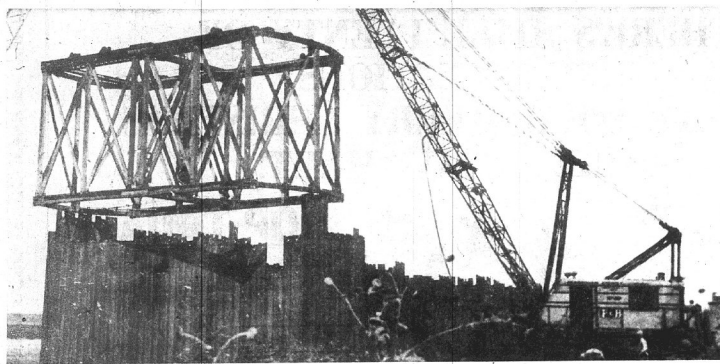

Now, ten years after the first shipment, the future appears bright. All interest and sinking fund payments on the bonds have been met when due. And \$23,000 of the principal has been repaid ahead of schedule, indicating that the bond issue can be retired before its scheduled 20-year maturity.

The original 1953-54 construction and the 1962-63 expansion have resulted in ideal transportation facilities situated on the permanent channel of the Mississippi River—the major water artery through the heartland of America.

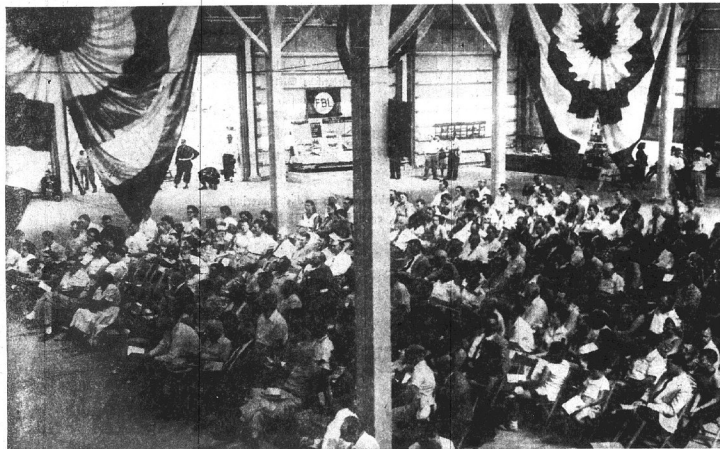

Description Of Harbor Area
Occupying the southern part of the overall harbor, the Bi-State Development Agency facilities are dominated by the new 900-foot-long main dock—the first 400 feet on the south end of the agency by the St. Louis Terminal Distributing Co. on a public utility basis, with equal rates to all users, and the next 500 feet leased by the steel company.

The Port of Granite City—defined as including all of the widened area of the harbor—currently has not one but two occupants, indicating the pressing need for even more extensive development in the near future. With the ten-year-old Bi-State terminal located on the south, the Tri-City Regional Port District is directing its attention to the northern harbor area, installing initial storage tanks and shipping facilities at the present time.

Both the Bi-State Agency and the Port District have substantial acreage available behind the waterfront itself to accommodate the future expansion as the need develops.

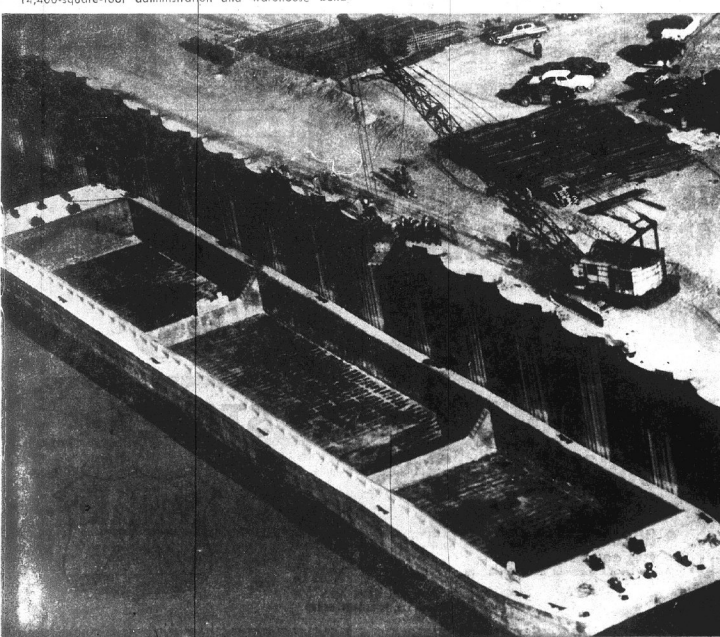

CONSTRUCTION OF DOCK (above) in 1954. The wooden template being held by a crane was one of those used in installing sheet pile cells. Thirty-eight cells of interlocking sheet steel were built around such templates prior to paving of the dock surface, building of embankments and trestles and installation of tracks and roads.

DEDICATION AND FIRST SHIPMENT at the new river terminal. Part of the large crowd attending opening ceremonies Sept. 17, 1955, is shown above, seated in the 14,400-square-foot administration and warehouse building. WATERFRONT PANORAMA above shows railway access, loading and unloading equipment and barges at the Bi-State Development Agency terminal in Granite City. In background are the locks at the southern end of the Chain of Rocks Canal. Three railroad tracks are now in use along the front of the dock for direct loading and unloading, and cars also can be loaded directly on two additional tracks at the rear of the warehouse and loading platforms.

By 1959, the first of the major terminal were issued by Bi-State. In its early years, the terminal proved to be slightly handicapped by the size of its loading area and the lack of facilities for handling bulk cargo. Under an agreement completed in November 1962, the framework of the existing dock, which the firm agreed to regular use of the terminal.

One of the studies brought out that the development and shipment dignities led by Vincent R. Davis, Chairman of the Bi-State Development Agency, had been based on State of Commerce President Carl

to both its markets and its raw materials. It expanded the sales area and led to non-stop shipments to such distant points as Central and South America.

But the public portion of the terminal also began rendering service to the entire community and region. A related benefit was the attraction of new industry, such as the A. O. Smith Corp. auto frame plant.

For the Bi-State Agency, the project was its first and only revenue producer for nearly a decade. Its success attracted support from important quarters, including the Missouri legislature, which previously had shown only a lukewarm attitude toward the agency.

While the initial dock valued at \$2 million represented a substantial investment, it does not tell the full story of the facility. Revenue bonds totaling \$1.2 million now in regular operation

500,000 for the wharf and freight at the harbor.

1st Bi-State Development Agency Project

The Bi-State Development Agency—currently marking the tenth anniversary of its initial project—is fast approaching the diversity of programs contemplated when it was created.

Major activities aside from the river terminal, which is described on the preceding page, range all the way from horizontal transportation—the metropolitan area bus network—to the vertical—cans designed to carry visitors to the top of the Gateway Arch currently being built on the St. Louis river-front.

Bi-State was established Sept. 20, 1949, by a compact between the states of Illinois and Missouri. This was approved during 1950 by Congress and the President of the United States, and the compact has since been amended three times, in 1953, 1958 and 1959.

Purpose of the agency is to provide for the Illinois-Missouri Metropolitan Area an agency similar to the Port of New York Authority.

It may own and operate certain types of public works projects, and it may make studies and plans for coordinated development of the two-state area. But it has no taxing powers—direct or indirect. It is specifically prohibited from actions which would impair or invalidate the bond debt of any city, county or other governmental body.

Issues Bigger Than Boundaries

Its formation stemmed from studies carried out by the Metropolitan Plan Association, which found that many statewide problems transcended community and state boundaries.

An example was the need for a secondary metropolitan airport. Most of the business was based in Missouri, but most of the available land was in Illinois. Both states had something to gain from joint action, and much to lose if nothing was done. Yet, without a governmental agency having jurisdiction in both states, little could have been accomplished.

Aware of the need for coordinated planning and action when they created the agency, the two state legislatures specifically required preparation of a comprehensive plan for development of the 3367-square-mile district.

The territory served consists of the city of St. Louis, Mo., the Illinois counties of Madison, St. Clair and Monroe, and the Missouri counties of St. Louis, St. Charles and Jefferson. The area includes more than 225 municipalities, 750 taxing bodies and 2,000,000 people.

To assure fair treatment for both states, the ten-member board which was created consists of five appointed by the governor of Illinois and five appointed by the governor of Missouri. Commissioners are named to overlapping five-year terms, and all serve without pay as a public duty.

Both States Must Approve

No action is binding unless taken at a meeting at which at least three members from each state are present and vote favorably. Actions taken so far have been unanimous. The commissioners choose their own officers.

The comprehensive plan, outlining major deficiencies and needs of the two-state district, was submitted to the two governors in January 1951.

In addition to preparing the plan, Bi-State assisted in gathering several joint surveys, including a study of Mississippi River pollution before the agency was a year old.

After developing a complete census of the nature and sources

former St. Louis Public Service Co.

Their experience—combined with the commissioners' supervision and the agency's broad jurisdiction—have made possible major economies and improvements in service, achieving a sound financial basis in a field system elsewhere has become intractable.

An example of the improvements is that, within two years of Bi-State acquisition of the bus system, 200,000 miles of bus routes and report, voters of St. Louis will provide air-conditioning—

policy of avoiding areas in which private enterprise is capable of providing service, or in which another governmental agency is willing and able to carry out the desired activity.

A unified airport program and progress toward a rapid transit system loom as future possibilities.

Projects which the agency is empowered to own and operate include bridges, tunnels, airports, wharves, docks, harbors, waterways and other storage

facilities, grain elevators, sewage disposal plants, passenger transportation and air, water, rail, truck and other terminal facilities.

Bi-State also is authorized to make plans for coordinated development of streets, highways and parking areas, terminals, water supply, sewage and disposal works, recreation

and conservation facilities, land use patterns and other matters in which joint action of communities within the two-state area would be generally beneficial.

Granite City Steel has been interested in the Granite City harbor ever since it was proposed. The first shipment from the new Bi-State Agency dock on that December day 10 years ago was a barge-load of our carbon steel slabs. We helped finance the construction of the original dock, and of the recent extension.

"We receive iron ore, steel scrap and other heavy materials through the Port of Granite City and ship our flat-rolled steel products to other points on the inland waterways."

"The Bi-State dock has made our freight rate structure more competitive and helped enlarge our market area. Granite City Steel competes as far north as Minneapolis, and our products move south to Nashville, Memphis, Houston, Baton Rouge and other points. We are even able to sell steel in central Florida, with large shipments to the Gulf Coast port of Tampa."

"Industry needs the widest possible choice among carriers and routes in moving products to customers. Competition leads to efficiency."

"The real significance of the Bi-State dock is that it allows our local industry to make the best use of this area's abundant transportation resources, which include rail and truck as well as water," Veeder concluded.

Granite City Mayor Leonard R. Davis today cited the importance to the local community of the river shipping terminal established a decade through the cooperative efforts of Granite City Steel Co. and the Bi-State Development Agency.

"I've always believed in the potential of our water transportation, and it is fortunate for this area that the harbor was dredged out and the dock was built."

"I see a big future for shipping operations that combine barge loading with rail lines and trucks. With the start which has been made here, we can't be playing a big part in the continuing expansion of the mid-west's freight transportation."

Key to new Bi-State activities regarded as a "win-win" situation by Transit citizens and public officials to make use of services the agency can provide. It has followed a

The canal flares to a 700-foot width as it sweeps north past Bi-State Development Agency public and leased dock areas and (near top of picture) the liquid tanks and shipping facilities being developed by the Tri-City Regional Port District.

OPEN THE YEAR-AROUND, as is apparent from the view below of a large barge being loaded with steel despite ice in the Chain of Rocks Canal, the Granite City harbor also offers assured channel depths of 18 feet and relatively quiet water, simplifying transfers of cargo.

Bartylak Names Partial Staff

Joseph R. Bartylak of Collinsville who took office as state's attorney of Madison county, announced appointment of John Githoff of Granite City, and Harry Mondink, Alton, as new assistants, and said he expects to round out his office staff soon.

Bartylak succeeds former State's Attorney Dick H. Mudge who did not seek re-election after two terms in office and for whom Bartylak served as an assistant. Githoff was a former assistant to Mudge for three years.

Bartylak also said that Richard Allen of Granite City, who has handled work in the family court division, also will be retained, and that Merle Bassett of Wood River will be retained temporarily as an assistant pending completion of trial work he is handling in criminal cases. A new assistant will be named later to replace Bassett, he said.

Whether or not Burton Bernard of Granite City will be retained as civil assistant to handle litigation over railroad tax objections now before the Illinois Supreme court depends upon efforts to arrange funds to carry on the work. Bartylak's request for a fifth assistant to represent the county in tax litigation was turned down by the county board's finance committee in drafting the new budget. Some arrangement may be made to continue the service, Bartylak said.

Reassurance Service Plan To be Started by Jaycees

A completely new, non-profit service, which could eliminate a great deal of worry for persons with older relatives or friends who live alone, is to start next Tuesday in the Quad-Cities.

Named the Reassurance Service by its sponsors, the Granite City Jaycees, it will provide a daily telephone call to anyone whose name and phone number is listed with the service at the low cost of \$1.50 per month, or five cents per day.

The program is being planned with the cooperation of the YMCA, which will provide facilities for records and work space, and Granite City police department and the YMCA Senior Citizens Club.

Included in the monthly charge is a daily telephone call with the dispatcher to notify the local police department if no answer is received. All members will be urged to leave a key at the local police station so that entrance can be obtained into the home if police consider it necessary.

An ambulance service will be on call.

4 Venice School Vehicles Sold

Sealed bids on four vehicles owned by Venice school district were read by Board President Michael E. Leatherman Monday night and all were sold to the high bidders.

A previous call for bids on the same vehicles resulted in rejection of all bids as too low. A high bid of \$504 for a 57-passenger school bus (1955 model) was accepted from the Granite City Jaycees. Other bids were received from the Barker Bus Service, \$230, and the Barker-Wayne Co., \$250. The latter firm was high bidder with \$800 for a 46-passenger 1960 school bus. A second bid of \$750 was received from Barker Bus Service.

A single bid of \$405 for a GMC 21-ton Army truck was made by Thomas Skierke Co. Sale of a 1953 Ford school truck interested six bidders with a high figure of \$300 by Joseph Boyd. Other bidders were city of Venice, \$225; William C. Smith, \$151; Charles Ahning, \$102; M. E. Esseneper, \$80; and Thomas Skierke Co., \$75.

Authorization was granted by the board for payment of \$8928 for withholding tax, including pension fund, Illinois municipal retirement fund and hospitalization.

Bills approved for payment from the educational fund were \$4038, and lunch bills totaled \$1035. Included in a total of \$2634 in bills from the transportation fund was \$1704 to Bi State Transportation Co. for October school bus service; \$254 to Quad-City Cab Co. for transportation service to East St. Louis under a special education program; and \$165 for two months' transportation cost to Berthault under the same program.

City Bill List, Payroll Amount to \$89,478

A bill list amounting to \$83,549 and a half-month payroll of \$54238 for a total of \$89,478 were approved Monday night by Granite City council members. The largest payments were for motor fuel tax street projects and went to A. H. Stebbins Co. for the amount of \$18,272 for Nevada avenue and West 23rd street and \$12,390 for Woodlawn avenue. David J. Johnston & A. J. Sotomayor, engineers, were paid \$2080 for services on the Woodlawn project.

Allowances on the bill list included \$199 to Mayor Davis for November expenses, and administrative allowances of \$30 to Edmund Bartosinski and \$60 for Mrs. Bettine for two months.

The miscellaneous bills included \$1815 paid to Illinois Power Co. for street lighting and other services; \$1333 paid to East St. Louis & Interurban Water Co. for rental on 300 fire hydrants and other water service in November; \$2475 paid to the Illinois Municipal Retirement Fund for employee retirement; \$1400 paid to Gabriel & Dolanoff architects for services on the West Granite fire house construction; and \$211 paid to the Lueders Agency as minimum of a steam boiler policy through Nov. 4, 1967.
